

THE
CULTURE OF THE KINGDOM

COL 1:13

BMi SUMMER SCHOOL
 KIAH RIDGE NSW 15-19 JANUARY 2018

Henry Van Til defined culture as 'a person's religion externalised', implying that there is a unique culture of Christianity. Therefore we might expect that the culture of the Kingdom of God differs from the culture of the world. Because the Christian worships the God who is above all gods, it seems inevitable that the beauties and truths of the Christian way of life will lead to a culture which is above all cultures.

The 2018 Summer School will bring to light what is unique about the culture of our faith so that we can live effectively in and for Christ. Contrasting the Gospel culture with that of today's society will help us to define and apply the deliverance from this power of darkness which Christ has won for us. To live for Christ in this culture makes this Summer School an imperative for us all.

The BMi Summer School is a chance to devote four days to the exploration and study of God with other like-minded people. Registration is open to all who are interested.

Date Monday 15 to Friday 19 January 2018
